INTIMATE TOUCH ON LIPS

li Quandisa

In each of us, there is at least a part of the goddess of beauty and lust, which gave its name to the *first nourishing oil for intimate care in the world*.

li Quandisa was created and captured in the alluring bottle for one single purpose: to emphasise and enrich your femininity.

As this is a gentle and delicate area of the female body, we invested a great deal of care and attention in its preparation. The unique and well-thought-out combination of choice oils is *enthalling*, and the pleasant and nourishing effects are simply ... *DIVINE*.

The secret

In cooperation with experts, we combined a sensual mixture of oils and plants, each of which has its own special properties.

The peach seed extract has a distinctly nourishing effect, common sea buckthorn acts as an antiseptic, while the addition of cinnamon acts as a mild aphrodisiac.

The li Quandisa nourishing oil for intimate care neutralises unpleasant odours, prevents inflammations, itching, mucus membrane dryness, balances its flora, and improves the muscle tone. It is recommended for ladies of all ages, and can also be used by men.

The experience

Because of its natural ingredients, everyday use is completely safe. For the best effects, we recommend you use the oil 7 days in a row at least once a month.

Shake the bottle before use, apply a few drops with clean hands to the intimate area of the mucus membrane, and wait until it absorbs into your skin.

You can use the oil as desired or needed. Its high quality and effects represent a huge step forward in intimate care. It is also completely natural and will cause no problems if coming into contact with someone's lips.

100%

Knowledge, sensuality, and respect for your body
were entwined in the process of the manufacture
of the li Quandisa nourishing oil.

We can proudly guarantee that li Quandisa is:

Of 100% vegan and plant origin
